Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 5-11, 14, 16 and 18-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Woolston.

Woolston teaches a method and apparatus for creating a computerized market for used goods. Specifically the user of the system may establish an account, this process includes all well known credit card clearing techniques (column 5; lines 10-20). (pre-registration module).

Woolston further teaches a posting module (description module) which contains a database of items to be auctioned (column 10; line 42).

Examiner now references Figure 5 that shows the logical block flow diagram of the processes the consignment node of Woolston may take to execute an auction. Namely checking for bids (260), identifying the high bid (262), checking if a reserve price is met (268) and notifying bidders (264).

Examiner notes that the system of Woolston relies on "consignment nodes" which act to provide assurances and create trust to participants (column 18; lines 46-50). The consignment nodes are third party individuals who are market leaders for a given used good (column 2; lines 40-50). They provide the verify the good being sold/auctioned and provide assurance to the buyers that the item present is genuine. Examiner notes that the consignment nodes of Woolston represent the assurance module of Applicant's invention.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2, 13, 15 and 24 rejected under 35 U.S.C. 103(a) as being unpatentable over Woolston in view of Admitted Prior Art.

Woolston does not teach the use of the sytem for heavy machinery. However, Examiners took Official Notice in the Office Action mailed 10/17/03, that the auctioning of heavy equipment items was old and well known in the art as a way for companies to either off load equipment they no longer need or for a company to acquire a piece of equipment they need at a reduced cost. Since Applicant failed to traverse the assertion of Official Notice it is hereby taken as admitted prior art.

Therefore, it would have been obvious to a person of ordinary skill in the art at the time the invention was made to used the auction system of Woolston to auction heavy equipment items in order for companies to either off load equipment they no longer need or to acquire they need at a reduced cost.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3627

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
